You are about to purchase a product that is not simple and may be difficult to understand.

➤ What is this product?

Type: This product is an open-ended investment fund.

Term: No fixed term.

Objectives: The investment objective of the Japan Small Cap Fund is to provide investors with long-term capital appreciation through investment in equity securities of small capitalisation companies listed on Recognised Exchanges in Japan set out in Appendix II of the SuMi TRUST Investment Funds Prospectus. The portfolio managers consider small capitalisation companies to be those that have a market capitalisation of less than JPY 300 billion at the time of purchase. When making investments, the portfolio managers use a fundamental approach to stock-picking and attempt to identify investments that are overlooked by mainstream investors of the market. The fund may gain exposure to equities through investing directly in long only equities and the fund's investments will not be restricted to any industry or sector. Any income the Fund generates will be reinvested to grow the value of your investment. You can buy and sell units in the Fund on bank and stock exchange business days in Dublin, London and Japan and every day which banks are open for business in the US. The Sub-Fund falls within the meaning of Article 8 fund under the SFDR, i.e. a fund that promotes environmental or social characteristics, but does not have as its objective a sustainable investment. The Sub-fund does not invest in sustainable investments as defined under Article 2(17) of the SFDR. The fund is actively managed and does not aim to track or benchmark its performance against any index. The Russell/Nomura Small Cap Index or TOPIX (Tokyo Stock Price Index) (the "Reference Benchmark") is used as a reference for performance measurement and as part of the portfolio managers' ESG scoring process only, in particular for outperformance and marketing purposes, and not used to determine the composition of the fund. The degree to which the fund's holdings and weightings are similar to the Reference Benchmark are coincidental. The fund may invest directly into the constituents of the Reference Benchmark, however the fund's investment strategy has no restrictions regarding the extent to which the fund's holdings may deviate from the Reference Benchmark. The full investment policy is set out in the prospectus and at <https://sumitrust-am.com/funds>.

Intended retail investor: This product is intended for investors who are prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for at least 5 years. It is designed to form part of a portfolio of investments.

Depository: The Fund's assets are held through its Depository, which is SMT Trustees (Ireland) Limited.

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

 The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: USD 10,000		If you cash in after 1 year	If you cash in after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	USD 5,780	USD 2,210
	Average return each year	-42.20%	-26.03%
Unfavourable scenario ¹	What you might get back after costs	USD 7,120	USD 8,540
	Average return each year	-28.82%	-3.11%
Moderate scenario ²	What you might get back after costs	USD 11,340	USD 17,020
	Average return each year	13.43%	11.22%
Favourable scenario ³	What you might get back after costs	USD 16,070	USD 23,350
	Average return each year	60.71%	18.49%

Recommended holding period : 5 years

¹This type of scenario occurred for an investment from 09/2021 to 09/2023.

²This type of scenario occurred for an investment from 07/2014 to 07/2019.

³This type of scenario occurred for an investment from 09/2013 to 09/2018.

➤ What happens if SMT Fund Services (Ireland) Limited (SMTFSIL) is unable to pay out?

The assets of the fund are held in safekeeping by its depositary, "SMT Trustees (Ireland) Limited" (the "Depositary"). In the event of the insolvency of the Manager, the fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the fund may suffer a financial loss and there is no compensation or guarantee scheme in place which may offset, all or any of, this loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund.

➤ What are the costs?

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 is invested

Example investment: USD 10,000	If you cash in after 1 year	If you cash in after 5 years
Total costs	USD 161	USD 1,268
Annual cost impact(*)	1.61%	1.61%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.83% before costs and 11.22% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		If you exit after 1 year	
One-off costs upon entry or exit	Entry costs	We do not charge an entry fee for this product.	USD 0
	Exit costs	We do not charge an exit fee for this product.	USD 0
Ongoing costs taken each year	Management fees and other administrative or operating costs	1.15% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 115
	Transaction costs	0.46% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 46
Incidental costs taken under specific conditions	Performance fees and carried interest	There is no performance fee for this product.	USD 0

➤ How long should I hold it and can I take my money out early?

The recommended minimum holding period: 5 years.

The fund is designed for long-term investments; you should be prepared to stay invested for at least 5 years. As the Fund is a daily liquidity, you are able to redeem your holdings of the Fund without penalty at any time during this period or hold the investment longer.

➤ How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

i. Email: ManagementCompany@sumitrustgas.com;

ii. Complaints can also be sent to the Manager - SMT Fund Services (Ireland) Limited, Block 5, Harcourt Centre, Harcourt Road, Dublin, D02 DR52, Ireland.

If you are not happy with the response from the financial services provider, you have the right to refer the complaint to the Financial Services and Pensions Ombudsman (<https://www.fspo.ie/>).

➤ Other relevant information

Copies of the latest prospectus, annual report, semi-annual report, and the latest net asset value per share, are available free of charge at the registered office of the Management Company, SMT Fund Services (Ireland) Limited, Block 5, Harcourt Centre, Harcourt Road, Dublin 2. Ireland.

Past performance and previous performance scenarios: The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules. Note that the performance scenarios calculated above are derived exclusively from the past performance of the Fund's share price and that past performance is not a guide to future returns. Therefore, your investment may be at risk and you may not get back the returns illustrated. Investors should not base their investment decisions solely upon the scenarios shown. Information about the past performance and performance scenario calculation is available on <https://www.sumitrust-am.com/>. Past performance is presented for the last 10 years or since inception if a share class does not have a history of 10 years.
